FAILURE OF TEAM CANNOT BE CHARGED TO COACHING.

In reviewing this year's Orange and Black football team, one must stop first and explain the importance of the new coaching system. If the team fails to win its big games, it can't be charged to poor coaching this year. The mistakes of other seasons in coaching methods are not in evidence now. The football committee of five, of which "Snake" Amers is Chairman, has full charge of everything this year. The committee is in

The most impressive feature was the companionable conditions that existed between coaches and players. If men were called it was "Red" Lamberton, "Stew" Baker or "Bill" Moore. There was quick recognition of merit. If some one made an especially good play the coaches would yell their approval. "That's the stuff" was the favorite expression. There was no harsh criticism. The ends and backfield men were chased down the field not once or twice, but dozens of times, catching the long spiral throws. Ritter, pad and pencil in hand, kept a record of the passes and catches.
